

Dinner & Networking Events for  
Architects, Developers,  
Housebuilders & Suppliers

# Coming up next...

**100@Events is the new International Networking Event & Dinner series, where a maximum of 30 Suppliers will have the opportunity to meet 100 top Architects, Developers and Housebuilders during an exclusive face to face meeting and presentation by leading industry figures in the respective countries, followed by a networking drinks reception and a gourmet dinner. The sole focus of 100@Events is to bring expert Suppliers, Architects, Developers and Housebuilders together in order to find solutions within the architectural and built environments**

Our next event is in Brussels (27th February 2019) and then \*London (5th March), Belfast (25th April), Dublin, Stockholm, Milan and Paris (dates TBC).

As our 100@ team produces your banner for the event and set up the venue, all you need, is to come along for the evening with your marketing materials and samples you wish to display in the suppliers' area. The reception is also held in this area and is an ideal opportunity to mingle with the guests. Furthermore, you get a 100 second golden opportunity to present your company to all the guests before enjoying a gourmet 3 course dinner with the senior architects, developers and housebuilders. During dinner, you will move 3 times from table to table to maximise exposure. The dinner is deliberately kept to 100 senior delegates, so the event remains intimate, enabling suppliers to meet all of the potential clients and swap details.

## Example schedule of the Manchester evening

(the Brussels line up will be announced shortly)

Chair: Paul Iddon RIBA, Vice President of Manchester Architects,

Total cost £2,695 +VAT Early bird Rate / £2,950 +VAT Standard Rate.

# Vision@ futurebuild

05-07 March 2019 / ExCeL, London

## Futurebuild welcomes Vision in 2019

Futurebuild is excited to partner with and welcome Vision to the 2019 event at ExCeL London, creating an unrivalled networking opportunity for architects, housebuilders and developers.

Vision will curate a London focused seminar programme on the show floor, surrounded by an exhibition of the brands aligned to the 100@London networking and dinner event. With a variety of critical issues facing the built environment, it has never been more pressing to explore these challenges and provide ways of delivering results that make a positive impact London as well as the wider environment and society.

Carrying on this theme, the event will also be home to Vision's 100@London networking evening which fosters collaboration and provides the chance to exchange ideas around key industry issues. This is the latest edition in Vision's influential 100@ events series around Europe, which connects 100 senior architects, developers and housebuilders, with 30 key manufacturers. The three-course gourmet dinner will include high profile industry speakers covering the major visions for London.

As part of the collaboration between Futurebuild and Vision, leading speakers from the architectural world and beyond will discuss and debate the future vision for London during a series of curated seminars. These will focus on the key themes of The London Plan of ensuring it is:

1. A city that meets the challenges of economic and population growth
2. An internationally competitive and successful city with a strong and diverse economy
3. A city of diverse, strong, secure and accessible neighbourhoods
4. A city that delights the senses and takes care over its buildings and streets,
5. A city that becomes a world leader in improving the environment locally and globally,
6. A city where it is easy, safe and convenient for everyone to access jobs, opportunities and facilities

**Last year, Futurebuild attracted over 26,500 visitors and 450 exhibitors from across the built environment. Vision's presence at Futurebuild will help to expand the high level of content available, providing senior decision makers and specifiers with much needed London focused material.**

Martin Hurn, Managing Director at Futurebuild, said: "We are extremely excited to have Vision at the event for 2019. Our combined strengths will provide the premier stage for not only leading decision makers in London construction and design, but those across the country and internationally as well. By bringing these people together we can tackle the big issues head on to predict and plan for a better future.

"We believe we offer an event that is completely unique to any other and working in collaboration with Vision will encourage new and returning brands to exhibit at the show. Vision provide a focus on evolution to explore and provide solutions to the biggest challenges facing the world's leading cities with a real focus on the role of architectural practitioners."

Matt Underhill, Managing Director at Vision, added: "It makes perfect sense for Futurebuild 2019 to be the base for Vision – we are simply adding to the already fantastic event programme already in place. We both share the same values in that we want to create the ultimate destination for senior representatives to collaborate and create action plans for change. Our 100@ networking and dinner series will also offer a new layer to Futurebuild, attracting the top architects, suppliers and house builders to an already busy event."
