## About Futurebuild 2022

Futurebuild brings together over **20,500** decision-makers from across the building industry, and these forward-thinkers and mobilisers need you to help them make the changes that will shape the future of the built environment.

Across three days, a world-class knowledge programme, alongside the exhibition of innovative and inspiring brands, combine to create an unmissable experience.

We are excited to introduce the District Energy pavilion in 2022, providing solutions and essential knowledge for those looking to understand more about the approach to decarbonisation of heat.

## WHAT IS DISTRICT ENERGY?

District energy and in particular low carbon heat networks are now recognised across the UK as one of the cornerstones for delivering decarbonisation of heat which is essential if we are to meet our commitments on Net Zero Carbon.

The District Energy pavilion will provide solutions and essential

knowledge for those looking to understand more about this approach to decarbonisation of heat, whether from the perspective of the range of energy sources, distribution systems, consumer connections or the impending regulation of heat networks.

### Top products visitors want to see

**RENEWABLES | ENERGY STORAGE | HEATING SYSTEMS**

**49%** visit for renewables

**35%** visit for heating systems

**75%** visit for the latest innovations and technology

IN PARTNERSHIP

UKDEA

DISTRICT ENERGY ASSOCIATION

# THE DISTRICT ENERGY PAVILION AND 3 DAY SEMINAR RETURNS TO FUTUREBUILD 2022
